

Urashima Class Heavy Explorer

USS-
NCV-

Background-

The Urashima Timeship is Starfleet's answer to solving major problems in the timestream that can only be fixed by physical proximity. The presence of one of these vessels in any time indicates that either a temporal disruption is about to happen or has happened. In either case, it is well equipped to deal with any problem, as it features the most advanced systems of the 31st century.

Starship Data

Production Data-

Class/Type- Urashima / Heavy Explorer

Origin- Federation Timefleet

Year of Construction- 3088

Hull Data

Structure- 60

Size/Decks- 12/140

L/H/B- 1,600/700/1,050

Compliment- 2,800

Operational Data

Atmospheric Capable- N/A

Cargo Units- 200

Stealth System- N/A

Life Support- Class 6 (G)

Operations System- Class 6 (G)

Sensor System- Class 7a (+7/+6/+5/+4/+3) (GG)

Separation System- N/A

Shuttlebay/s- 2FV, 2AV

Shuttlecraft- 48 size worth

Tractor Beam/s- 2FV, 3AV

Transporters- 10S, 10E, 10C

Renown-

Structure-

Propulsion Data

Impulse System- HID-f (.99c) (CC)

Primary FTL System- QSD Mk 5 (9.999999) (G)

Secondary FTL System- TDD Mk 5 (E)

Tactical Data

Beam Weapon- Type A3 (X5/H)

Penetration- 17/17/17/0/0

Missile Weapon- C-J (X5/HH)

Penetration- 21/21/21/21/21

Defence System- FTS-10a (H)

Protection/Threshold- 27/7

Miscellaneous Data

Manoeuvre Modifiers- +4C, -1H, +4T

Traits- Ablative Matrix, Enhanced System (Beam, Transporter), Multispectral Shields, Temporal Transporters, Unique System (Temporal Displacement Drive)
